

The Audi RS 6

Pricing and Specification Guide
Valid from May 2010

Personalising your Audi RS 6

This guide has been designed to help you tailor and price your Audi RS 6 quickly and logically. At the back, you will also find information on CO₂ emissions-based vehicle excise duty and the other services offered by Audi, including Finance and Insurance. Alternatively, you can go to audi.co.uk and configure your Audi RS 6 online.

Vorsprung durch Technik

Three words that express the very essence of Audi. Vorsprung durch Technik isn't a slogan. It's our way of seeing the world. It is the driving force behind our history of innovation that continues into the 21st century. Indeed, many technologies that Audi pioneered remain in our cars today. Some are milestones in the history of the motorcar.

From our beginnings in 1899, to the Auto Union team's Grand Prix successes in the 1930s and our more recent wins at Le Mans, we have always been at the forefront of the motor industry.

Vorsprung durch Technik makes us who we are. To see more of its influence, just read on.

Introducing the Audi RS 6 – the most powerful car we've ever built

There's a lot more to the RS 6 than its understated looks suggest. For a start, this is the single most powerful model ever produced by Audi. It's partly thanks to innovative features like quattro® all-wheel-drive, a lightweight suspension system and a highly efficient tiptronic transmission, which ensure the RS 6 delivers performance from every part.

But it's what lies beneath the bonnet that really makes this car worthy of the cult RS badge. The 5.0-litre bi-turbo TFSI® engine combines direct injection and turbocharging to produce an astonishing 580PS of power. Special flaps create a swirl of air inside the cylinders, drawing in heat, helping to improve efficiency and increasing the surface area where combustion takes place. This, together with two large turbochargers that create pressure of up to 0.7 bar, is what accelerates the RS 6 from 0 to 62mph in just 4.5* seconds and then on to its electronically limited top speed of 155mph.**

*Saloon. Avant – 4.6 seconds

**Where law permits

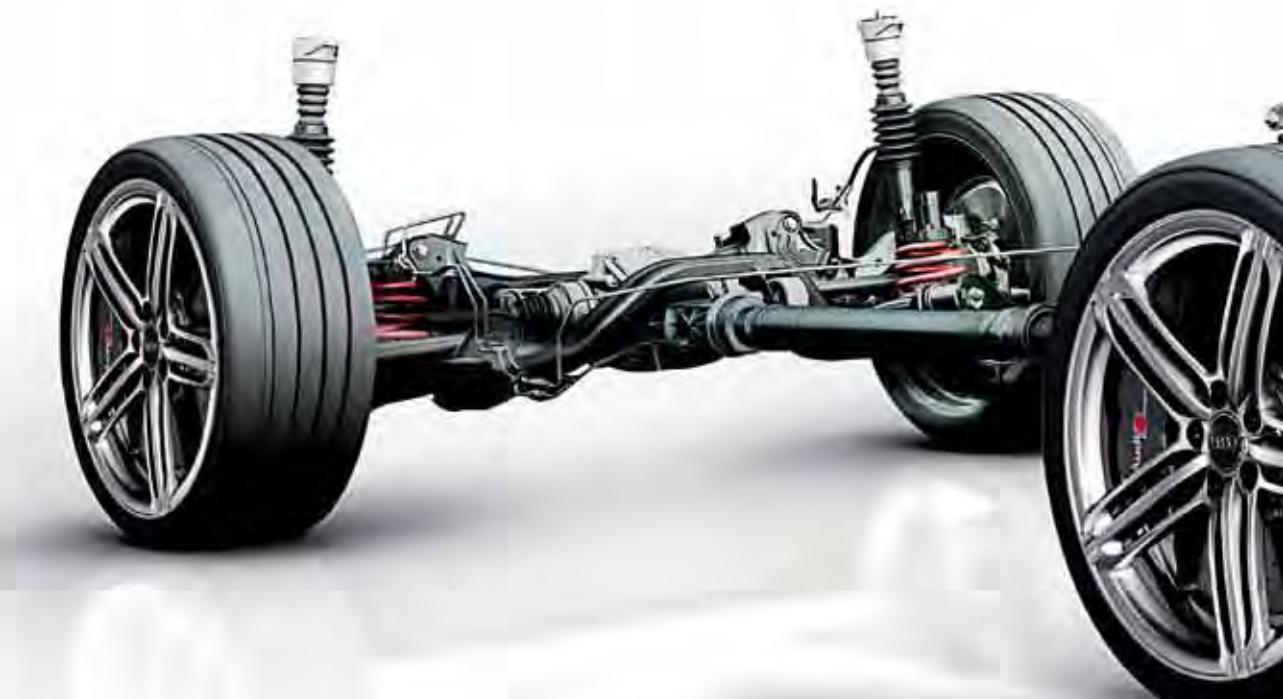

Technology

quattro®

It's the technology that has given Audi the edge on the racetrack ever since it was first introduced 30 years ago – a technology that delivers ultimate control whilst enhancing the sporty characteristics which make the Audi RS 6 so thrilling to drive. It's called quattro® permanent all-wheel drive. The principle is simple: in the same way that four brakes ensure better deceleration, four permanently-driven wheels deliver better acceleration and road-holding, pushing or pulling the car as needed, for a driving experience that's both dynamic and safe. In the Audi RS 6, asymmetric dynamic torque distribution continuously distributes drive power between the front and rear axles, depending on weather conditions, road surface and gradient. This leads to greater flexibility and an enhanced, sportier drive.

Dynamic Ride Control

Dynamic Ride Control is one of the technologies that make the Audi RS 6 such an exceptional car. This advanced suspension system (which has been further developed for the RS 6) reduces pitching and rolling movements and ensures stable and controlled handling.

Dynamic Ride Control also gives you the choice of three different suspension settings: Comfort, Dynamic and Sport. Using the car's MMI (see page 12), you can choose the firmness of the suspension, according to the driving style you'd like to adopt and the roads that you're driving on. The Comfort setting provides an ultra-smooth ride; Dynamic is perfect for a fast, assertive driving style and the Sport setting delivers the ultimate in driving precision and responsiveness.

Engine

At the heart of the RS 6 is the most powerful engine that Audi make. It's a twin-turbocharged, ten-cylinder engine, developed exclusively for this model, which generates torque of up to 650Nm all the way from 1,500 to 6,250rpm. This formidable power is channelled through an enhanced 6-speed tiptronic® transmission that enables shorter gear shift times and smoother, quicker acceleration. These are just some of the factors that help the RS 6 to go from a standing start to 62mph in just 4.5* seconds.

It's the kind of performance that's only possible with advanced TFSI® technology. This is a unique Audi innovation that was originally developed for the Le Mans 24-hour endurance race to deliver more power and torque, as well as enhanced fuel efficiency. Precisely the right amount of fuel and air are injected into the combustion chambers, enabling the engine to 'breathe' more easily.

Transmission

tiptronic

The tiptronic® transmission is available in all Audi models with quattro® but we've specially tailored the version in the RS 6 to make the most of this car's capabilities. It means that the system works with no interruption to the flow of power. The technology converts high torque into both sporty performance and driving convenience, with crisp, fast gear changes, reduced weight and an optimised gearshift strategy. More spontaneous gear changes are a particular benefit, especially when downshifting. Both in the 'D' (Drive) and 'S' (Sport) programme, the advanced electronics used in tiptronic respond efficiently to every driver input, helping to prevent unwanted upshifts when cornering.

Standard model equipment

All RS 6 models have the following items of standard equipment

The typical characteristics of the Audi RS models emphasise the exclusive, dynamic and sporty character of the Audi RS 6. It is unmistakable.

Please note that the RS 6 is only available to order up to and including 14 June 2010.

Wheels, tyres and suspension

20" x 9.5J '5-segment-spoke' design alloy wheels with 275/35 R20 tyres
Dynamic Ride Control (DRC) Sports suspension system with 3-level control (Comfort, Dynamic and Sport)
High-performance braking system
RS-specific quattro® Sports chassis
Tyre Mobility System

Safety and security

Audi Parking System Plus with front and rear sensors
Cruise control
Electromechanical parking brake
Front and rear ISOFIX child-seat preparation with front passenger airbag de-activation switch
Front and rear side airbags with sideguard curtain airbags
Light and rain sensor for automatic activation of lights and windscreen wipers
Tyre Pressure Monitoring System

Seats

Electric lumbar support for both front seats
Front and rear seat heating
RS-specific front Sports seats, electrically adjustable, driver's side with memory
Silk Nappa leather with contrast stitching and RS embossing
Through-load facility

¹The given value was obtained in accordance with the specified measurement procedure (the respective current version of Directive 80/1269/EEC).

²The given values were calculated in accordance with the specified measurement procedure (the respective current version of Directive 80/1268/EEC). This information does not relate to a single vehicle and does not comprise part of the offer but is merely intended for the purpose of comparison between the different vehicle types.

³Vehicle's unladen weight without driver (calculated in accordance with the current version of Directive 92/21/EEC). The fitting of additional equipment may increase the vehicle's unladen weight and drag coefficient, whereupon the potential carrying capacity and top speed will be correspondingly reduced.

⁴Vehicle not suitable for towing equipment.

⁵Loaded up to roof with rear seat folded down.

RS 6 Saloon dimensions

The technical drawings opposite show the exact dimensions of the RS 6 Saloon, so you can check everything – from whether the car will fit in your garage to whether your luggage will fit in the boot.

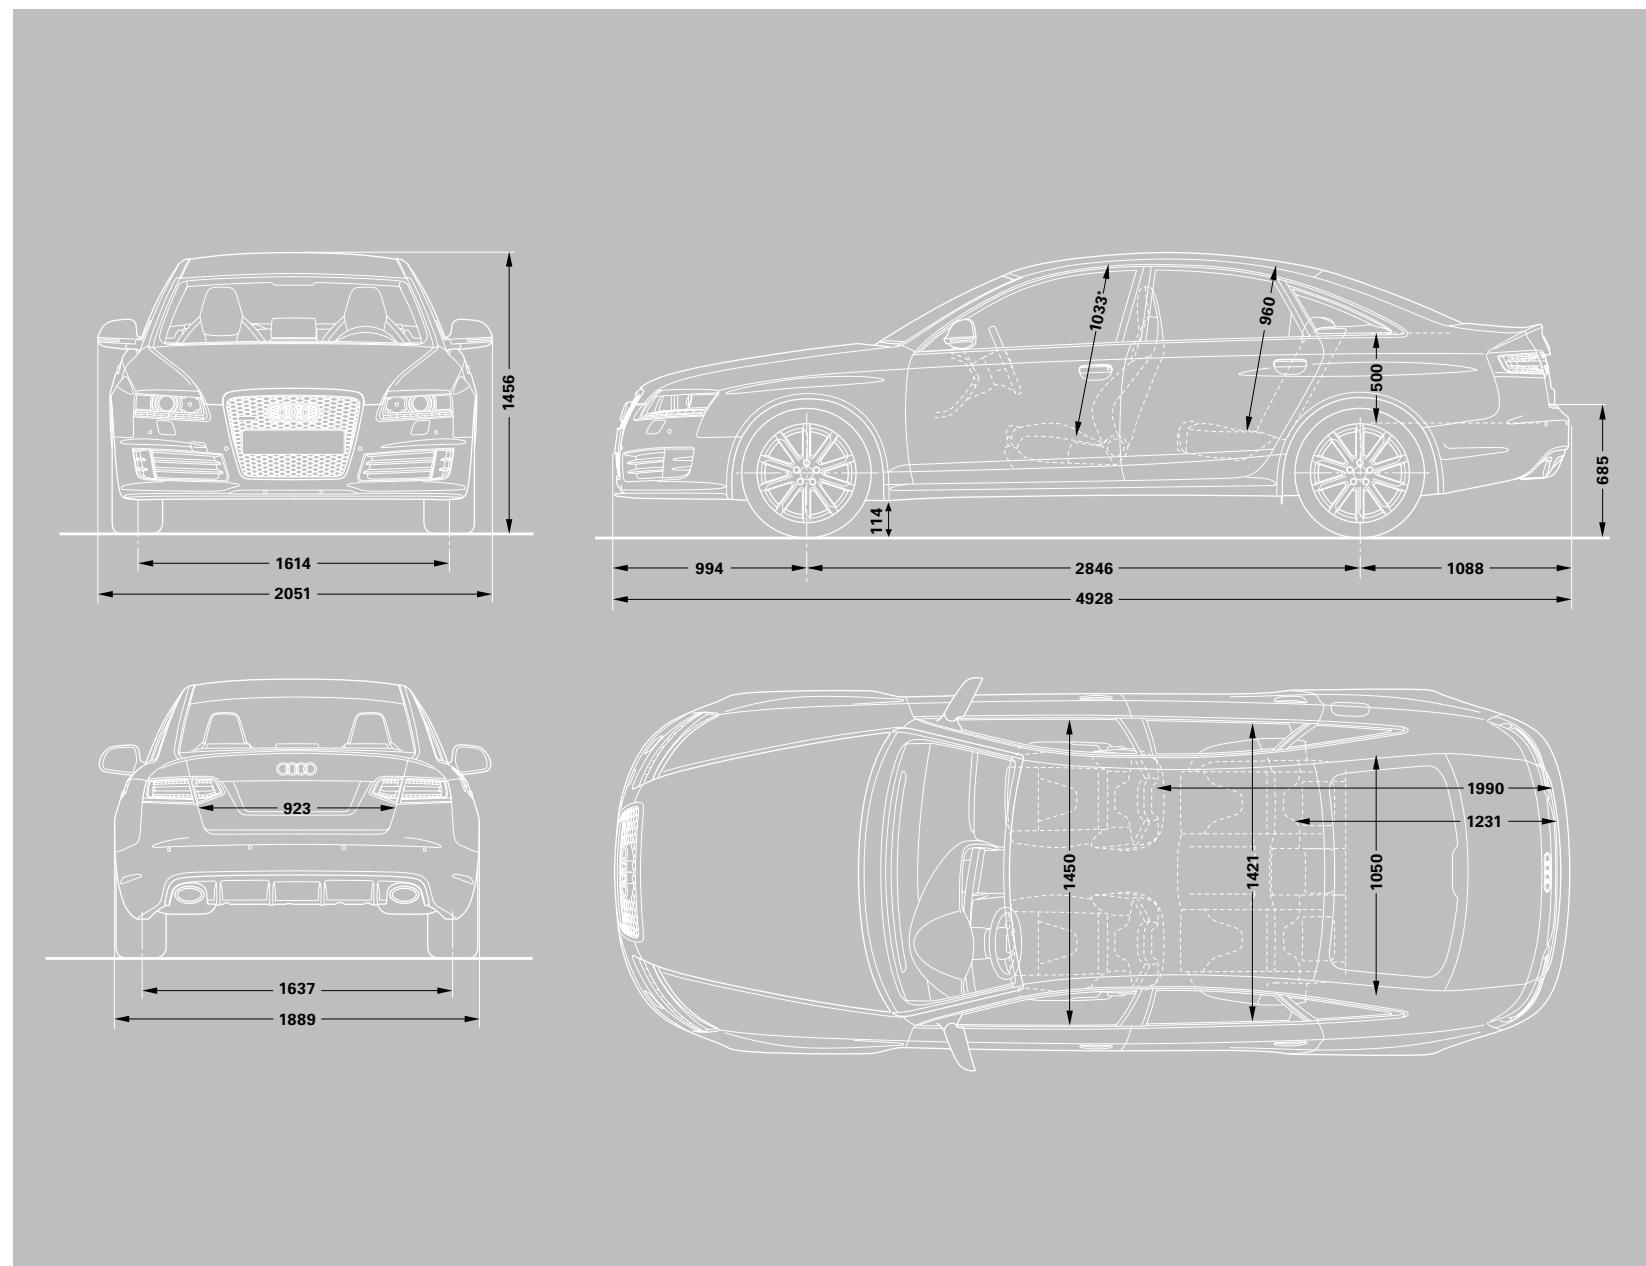

Turning circle approx 12.2m

Dimensions in millimetres

*Maximum headroom

Dimensions were measured with vehicle at unladen weight, ground clearance measured with vehicle carrying its maximum load.

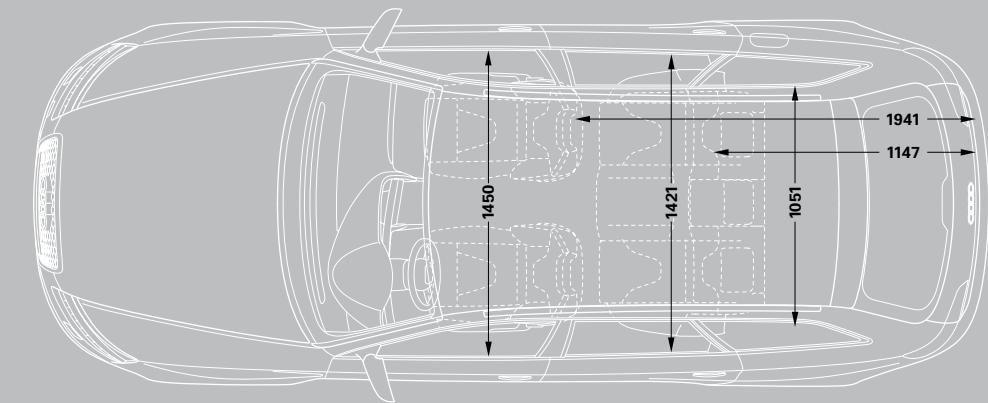

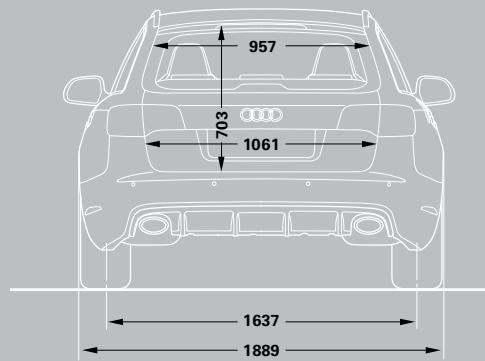

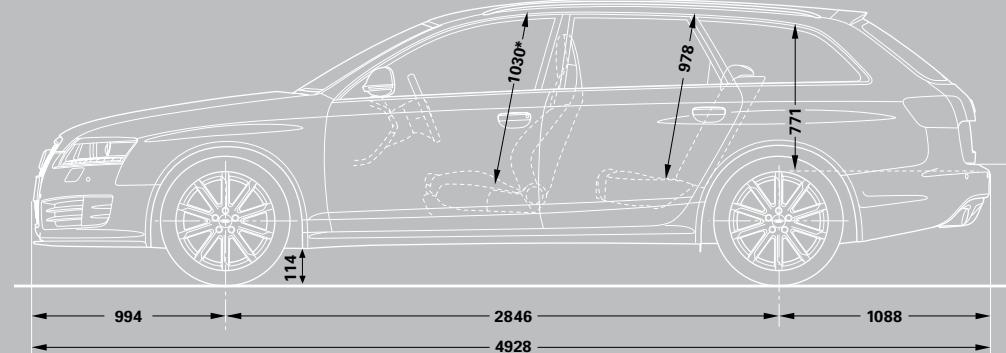

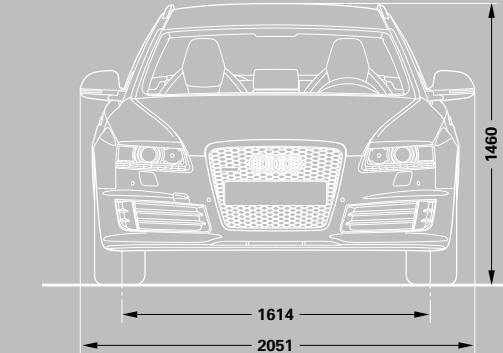

Luggage compartment volume in litres:
565/1660 (measured by the VDA standard test method using 200 x 100 x 50mm blocks; second value: with rear seat folded down).

RS 6 Avant

dimensions

The technical drawings opposite show the exact dimensions of the RS 6 Avant, so you can check everything – from whether the car will fit in your garage to whether your luggage will fit in the boot.

Additional information

CO₂ data and information

CO₂ emissions-based Vehicle Excise Duty

Vehicle Excise Duty (Road Fund Licence) is based upon the amount of Carbon Dioxide (CO₂) a vehicle emits, measured in grams per kilometre (g/km). The DVLA has created thirteen categories:

Petrol and Diesel engines

A – up to 100g/km	£0.00
B – 101 to 110g/km	£0.00
C – 111 to 120g/km	£0.00
D – 121 to 130g/km	£0.00
E – 131 to 140g/km	£110.00
F – 141 to 150g/km	£125.00
G – 151 to 165g/km	£155.00
H – 166 to 175g/km	£250.00
I – 176 to 185g/km	£300.00
J – 186 to 200g/km	£425.00
K – 201 to 225g/km	£550.00
L – 226 to 255g/km	£750.00
M – over 255g/km	£950.00

Vehicle Excise Duty (VED) rates correct at time of going to print, but these may alter to reflect any change in the applicable VED rate

Servicing tailored to your needs

Regular servicing is key to safeguarding your Audi's performance and a full Audi service history could help you preserve the future re-sale value. To make servicing easy, the Audi Service Schedules have been designed to work with your individual driving style and vehicle.

There are two schedules available and your Audi Centre will advise which is most suited to your needs. The conventional fixed Audi Inspection Service schedule has fixed intervals for the Oil-change and Inspection Service that are based on time

and distance, whichever comes first. With the Audi LongLife Service schedule, sensors take account of driving style and conditions in which the vehicle is used to indicate when the Oil-change Service is required. Oil-change Service intervals are therefore variable and are conveniently indicated via the on-board service interval display.

Fixed Inspection Service Schedule

Mileage	Vehicle usage:		Vehicle usage:
	Less than 10,000 miles per annum	More than 10,000 miles per annum	
Type of journey	Mainly city/town centre driving. Short journeys.	Type of journey	Motorway and main road driving. Mainly longer distance journeys. Constant speeds
Conditions	Frequent cold starts. High engine loading – e.g. frequent hill climbs, vehicle fully loaded, towing	Conditions	Normal engine loading – e.g. with little or no towing, with little or no hill climbs. Normal vehicle loading
Driving style	Uneconomical – e.g. heavy acceleration, heavy braking, constant changes in speed, constant use of high revs, 'sporty' driving	Driving style	Moderate acceleration, moderate braking, engine revs mainly below 3,000
Service Intervals:			Service Intervals:
Oil-change Service	Fixed to every 9,000* miles/1 year	Oil-change Service	Variable to a maximum of every 19,000* miles/2 years
Inspection Service	Fixed to every 19,000* miles/2 years	Inspection Service	Fixed to every 19,000* miles/2 years

*As indicated by the service interval display. Mileages are approximate as the Service Indicator system uses kilometres as its distance measurement.

Additional information

Welcome to Audi

By placing an order for your Audi, you're choosing to get behind the wheel of one of the most sophisticated cars on the road. And because we believe the service we offer should be just as advanced, we wanted to let you know exactly what you can expect from us, now and in the future.

We've agreed a set of standards with all our Centres, which governs the way we do business with you. It outlines the kind of service we promise to deliver for every customer, right down to filling each new Audi we sell with half a tank of fuel.

So whether you're interested in the date your car will arrive in the UK or the way we'll dispose of non-biodegradable materials after we service your Audi, you can have total confidence in us.

Audi Promise

Audi Centres

We guarantee that all our Centres will be open as follows:

Sales: Monday to Friday 9am-6pm

Saturday 9am-5pm

Service: Monday to Friday 8am-6pm

Saturday 8.30am-1pm

Sunday opening is at local discretion.

New car delivery

Once we've confirmed a delivery date for your car, we'll keep you informed of progress. Subject to reasonable notice, we'll then deliver it to a place of your choice, whether that's your home or work. In the unlikely event of a delay, we'll provide a courtesy car to minimise inconvenience and keep you mobile.

The experts in Vorsprung durch Technik

Would you entrust your Audi to anyone who hasn't been regularly trained to Audi standards? Our network of Audi Approved Master Technicians have undergone an impressive 100,000 hours of training over a 10-year programme to ensure they have the latest technical expertise for maintaining and servicing your Audi. All our Service Advisors undergo a specialist induction and training to ensure they are Audi professionals and able to talk to you about any issues you may have with your Audi vehicle. What's more, we have so much expertise and experience in looking after Audi vehicles that we are able to make a note of your mileage and the state of your vehicle as and when we see it and predict when certain key events may occur. As part of our commitment to you, we will notify you in plenty of time so you can make an appointment with us.

Your convenience comes first

At Audi you can choose from a range of convenient services that suit your needs. Why not book a 'service while you wait' appointment* and enjoy our complimentary refreshments while your car is with us? Or, if you need to be mobile, take advantage of one of our courtesy cars which we can even collect and deliver to you.* We guarantee we can service your Audi within 5 days without a courtesy car, or within 10 days if you need transport. We will also ensure your car is returned to you with a full valet.

Audi Genuine Parts

Would you put a part into your Audi that wasn't the same quality as the factory fitted original? You can rest assured that only Audi Genuine Parts will be used on your vehicle. What's more, Audi parts and labour come with a 2-year guarantee.** We stock a wide variety of parts, so we are well covered. However, if we don't have a part in stock at our Centre we have the back-up of parts at other Audi Centres, at our national warehouse and our factory and can usually source the relevant part very quickly.

We don't like surprises either

We believe strongly in transparency and there will be no hidden costs. For added peace of mind, we will give you a quotation over the phone for the work you have requested and email you the price confirmation. We'll consult you if any additional work on your car is needed when it is with us. We won't carry out any extra work without asking your permission first.

The Audi Stamp

Regular servicing is key to safeguarding your Audi's performance and a full Audi service history could help you preserve the future re-sale value of your car. Only the Audi Stamp will prove your approved Audi service history.

Getting better every time

We continually gather feedback from our Audi Trained Technicians, as well as our customers, to ensure our vehicles are running as they should. Whenever we see an Audi for a service, we connect it directly to our headquarters in Ingolstadt which enables us to check your car's software and make sure it's as up-to-date as possible. If the factory has released a software upgrade for your model, it can be applied immediately – improving anything from your car's efficiency to the precision of its parking system.

Environmental commitment

We promise to dispose of all non-biodegradable materials from your vehicle in a responsible manner.

*Subject to availability.

**Excludes wear and tear.

Pricing information

Pricing

Prices and specifications given are correct at the time of printing. Always check details with your Audi Centre, as Audi policies are continually developing. We reserve the right to change prices or specifications at any time.

All prices are subject to VAT, currently charged at 17.5% but this may alter to reflect any change in the applicable VAT rate.

Delivery charges and number plates are not included in the vehicle price.
